

BIPA

BAHASA INDONESIA BAGI PENUTUR ASING

BIPA UNISMA

BIPA learning in Unisma is conducted with a communicative, thematic, and fun learning approach. Learning activities are not only with lecturing method, but also using total immersion method. The immersion method opens the opportunity for students and teachers to use the full Indonesian language during classroom activities and outside the classroom. The teachers do not use a foreign language as much as possible, but they use the Indonesian in the process of teaching and learning activities.
